Our Manifesto

Nature does many things.
Protects. Provides. Preserves.
But what it never will, is pretend.

A leaf heals. A root restores.
A plant powers and purifies.
You get what you see.
No fake promises, no false advertising.
No ingredient fine print.

At JK, for well over a century,
we've followed this truth.
Embodying this honesty
as our true nature.
Sourcing right, processing clean.

No fillers, no compromises, no shortcuts.
Letting nature speak for itself.

The trust we garnered over 140 years
is a true testament to that.

By seeking the pure, and keeping it real.
By being nature's favorite messengers.
And above all, by being obsessively honest.
In processes, promises and philosophy.

Because when you stay true to nature,
nature stays true to you.

JK Botanicals Honest Herbal Heritage.

Time-tested heritage. Science-backed purity

Our Story

1885

L. Jairamdass Aggarwal

The Foundation of Jairamdass Khushiram was established in 1885 by Late Shri. Jairamdass Aggarwal. His entrepreneurship skills led to the establishment of multi ingredients shop in Amritsar, India which kept on growing year by year.

1910

L. Khushiram Aggarwal

Son of Late Shri. Jairamdass Aggarwal, continued the business at Delhi, with keen understanding of Ayurveda. He achieved the excellence in trading of herbs and spices throughout India.

1953

Mr. Haridass Aggarwal

Son of Late Shri. Khushiram Aggarwal, stepped into the business with a new vision of beyond India and started Import and export of herbs and spices.

1975

Mr. Sanjiv Aggarwal

Son of Mr. Haridass Aggarwal expanded business to Mumbai by setting up modernized facilities with a vision to increase presence in International markets.

2003

Mr. Sonaal Aggarwal | Mr. Ankit Aggarwal

Now the business is run by Mr. Sanjiv Aggarwal's two sons Mr. Sonaal Aggarwal and Mr. Ankit Aggarwal. With their entrepreneurship skills and deep understanding of market demands, they have upgraded the traditional business to a modern state-of-the-art business.

Our Infrastructure

Processing Unit

Our processing unit, located in Navi Mumbai, India, spans 120,000 sq. ft., bringing together all core operations under one roof - manufacturing, warehousing, cold storage and in-house quality control laboratories enabling full control from raw herb to finished ingredient.

Equipped with state-of-the-art infrastructure, the facility includes:

- ✓ Advanced steam sterilization systems
- ✓ Size reduction machinery for herbal cuts and powders
- ✓ Seed cleaning plant with color sortex
- ✓ Roasting, drying, and hydraulic baling systems and more.

Certified to BRC-FSMA and FSSAI standards, compliant with KOSHER, HALAL, USDA Organic, EU Organic, NOP and NPOP, our facility ensures purity and safety at scale.

Every process is handled by a skilled team trained in modern manufacturing protocols – ensuring we uphold our promise of certified purity and consistent quality.

Extraction Unit

Our GMP and FSSC-certified extraction facility in Pithampur, Madhya Pradesh, spans 90,000 sq. ft. across 3 acres, purpose-built to deliver trusted botanical actives at scale.

With a processing capacity of 3,000 MT of raw herbs annually, the unit produces:

- ✓ Standardized Herbal Extracts
- ✓ Supercritical CO₂ Oils and Oleoresins
- ✓ Phytochemicals

Final products are handled in **Class 1,00,000** clean rooms environments, ensuring purity, precision and global compliance.

Guided by five generations of sourcing expertise, we procure rare botanicals from around the world, enabling us to custom-develop potent, purpose driven ingredients that meet the exact needs of our global partners in nutraceuticals, wellness and personal care.

Quality Control

Our team has in-depth expertise in scientific, safety, toxicity, and pharmacological evaluations, adhering to global pharmacopeial standards such as USP, EP, BP, API, and IP. From botanical identification to the Certificate of Analysis (COA), we ensure every technical sheet captures all critical quality parameters.

Equipped with advanced analytical instruments—HPLC, UV spectrophotometry, gas chromatography (GC)—and a full microbiology lab, we deliver accurate, compliant, and consistent results. Ongoing R&D supports the evolving needs of our customers.

Our 4,000 MT refrigerated warehouse preserves the natural colour and aroma of herbs and spices with automated temperature and humidity control, high-efficiency insulation, and stainless steel evaporating coils for optimal hygiene and corrosion resistance.
